EDUCATION

Higher Certificate in the Arts of Game Design and Development

SAE Institute Johannesburg
2024

Bachelor's Degree in the Arts of Game Design and Development

SAE Institute Johannesburg
2024 – 2026 | Final Year / Pending Completion

CORE SKILLS

3D ART & ENVIRONMENT ART

- Hard-surface modelling
- Low-poly modelling

- High-poly modelling
- Game-ready asset creation
- UV unwrapping
- Scene Blockouts
- Retopology
- Basic sculpting
- PBR materials
- Environment design
- 3D asset implementation
- Lighting and rendering
- Rigging

TEXTURING

- Substance Painter
- PBR texturing
- Texture map baking
- Smart materials
- Layer masks
- Surface wear and damage
- Texture map export

GAME DEVELOPMENT

- Unity
- Unreal Engine
- C#
- Level design
- Physics
- Prefabs
- Scene management
- Camera systems
- 3D asset integration
- Game UI
- Animation systems

TECHNICAL ART

- Unity Shader Graph
- Unity VFX Graph
- Unity materials
- Unity lighting
- Asset optimisation
- Unity New Input System

- Git / version control

ADDITIONAL CREATIVE SKILLS

- 2D digital art
 - Pixel art
 - UI/UX design
 - Environment design
 - Level design
-

SOFTWARE

Blender — Intermediate

Hard-surface, low-poly and high-poly modelling, UV unwrapping, retopology, basic sculpting, PBR materials, lighting/rendering and rigging.

Unity — Advanced

C#, New Input System, UI/Canvas systems, Animator, VFX Graph, Shader Graph, lighting, materials, level design, physics, prefabs, scene management, camera systems and 3D asset implementation.

Substance Painter — Beginner

Model preparation, texture baking, PBR texturing, smart materials, masks, surface wear/damage and texture-map export.

Unreal Engine — Beginner

C# — Intermediate

Git / Version Control — Working Knowledge

PROFESSIONAL INTERESTS

- 3D Prop Art
- Environment Art

- Hard-Surface Modelling
- Game-Ready Asset Creation
- Technical Art
- Level and Environment Design
- Game Development
- Real-Time 3D
- Unity Development
- Stylised and Game-Focused 3D Art
